A free 6-week workshop series for LGBTQ+ folks
centering arts, healing, and visions of liberation

UNAPOLOGETIC

This May 2023, HopeWorks' Self-Care & Social Justice programs will launch a free workshop series titled, "Unapologetic: Using Arts and Humanities to Explore Revolution and Oppression." The Unapologetic Workshop Series will provide 15-20 LGBTQ+ identified adults with an opportunity to participate in six sessions exploring visual arts, performing arts, history, literature, and the healing arts. Participants will dialogue with artists and scholars, engage with herbalists and bodyworkers, and create visual and language art projects all reflecting on queer and trans identity and liberation. They will reflect on ideas around body liberation, healing intergenerational trauma, myths, migration, and more through group discussions, writing journal entries, and creating visual artwork.

Participants MUST be able to attend each workshop session
